Chair  
Committee on Appropriations  
U.S. House of Representatives  
Washington, D.C. 20515

The Honorable Rosa DeLauro  
Ranking Member  
Committee on Appropriations  
U.S. House of Representatives  
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for **City of La Verne for Drinking Water SCADA Modernization Project** in Fiscal Year 2027. The entity to receive funding for this project is located at **3660 D Street, La Verne, CA 91750**. The funding would be used to **modernize the supervisory control system that operates the City's drinking water treatment and distribution facilities. The upgraded Supervisory Control and Data Acquisition (SCADA) system will improve real-time monitoring of reservoir levels, pump operations, system pressures, and alarm notifications, ensuring the City can reliably maintain treatment performance and system integrity required under national primary drinking water regulations.** The project is an appropriate use of taxpayer funds because **it proactively replaces nearly 30-year-old control infrastructure that manages approximately 2.24 billion gallons of drinking water annually for more than 31,000 residents and thousands of businesses. The City's SCADA system is essential to monitoring reservoir levels, controlling pumps, maintaining system pressure, and ensuring compliance with federal drinking water standards.**

The project has a federal nexus because the funding provided is for purposes authorized by **Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.**

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Gilbert R. Cisneros, Jr.  
Member of Congress
